| Low voltage device that disconnects high voltage | Fuel tank content gasoline/ethanol |
1. Identification / recognition

The lack of engine noise does not mean that the vehicle is switched off. The vehicle can move without making a noise and can restart instantly provided it has not been fully switched off.

2. Immobilisation / stabilisation / lifting
3. Disable direct hazards / safety regulations

1. Engine Start/Stop button
2. Distance (5 m or 16 ft)
3. Enable feature
4. Confirmation symbol
5. Vehicle console and feature indication
4. Access to the occupants

Toughened glass (Serial) — —
Laminated glass (optional) — —

5. Stored energy / liquids / gases / solids

Li-ion 400V - 12,4 kWh
12V

If coolant escapes from the battery cooling system, there is a risk of a thermal reaction in the high-voltage battery. Monitor the temperature of the high-voltage battery!

6. In case of fire

Lithium-ion batteries may self-ignite or reignite once the fire has been extinguished. Monitor the temperature of the high-voltage battery!
7. In case of submersion

Remove the vehicle from the water then refer to chapter 3. “Disable direct hazards / safety regulations”

8. Towing / transportation / storage

9. Important additional information

10. Explanation of pictograms used

- Deactivate the hands-free key
- Bonnet
- Use water to extinguish the fire
- Warning, Electricity
- Corrosive
- Explosive
- Hazardous to the human health
