---	--	--	--

1. Identification / recognition

LACK OF ENGINE NOISE DOES NOT MEAN VEHICLE IS OFF: SILENT MOVEMENT OR INSTANT RESTART CAPABILITY EXISTS UNTIL VEHICLE IS FULLY SHUT DOWN. WEAR APPROPRIATE

2. Immobilisation/stabilization/ lifting

Immobilise vehicle

Depress brake pedal and press button “P”, the car will automatically apply the parking brake.

Stabilisation-lifting point

- Appropriate lifting points
- Suitable stabilisation points on the side
- High-voltage battery

3. Disable direct hazards / safety regulations

In the event of an accident in which the airbag is triggered, the high voltage system is automatically deactivated as soon as airbag triggering is detected.

In all other cases, the high voltage system can be deactivated as follows:

Main method: For deactivation in the front compartment, disconnect the high voltage battery.

1. Pull the release lever twice to open the bonnet.

2. Disconnect the high voltage.

①Push the button; ②Pull out the button

①Push

②Pull

Alternative method: Cut the wire harness in the luggage compartment, disconnect the high voltage battery.

1. Press the exterior switch to open the boot.

2. Cut the wire harness; follow the instructions on the label.

ACCESS TO 12V BATTERY

1. Press the exterior switch to open the boot.
2. Remove the Interior trim cover.
3. Disconnect the negative terminal.

4. Access to the occupants

Window Glass

Glass types: ① Laminated ② Tempered

High strength body areas

Seat adjustment

Power

Door latches/command

Power and Emergency switch

Steering column adjustment

Steering column has power or manual tilt and telescopic adjustment.

5. Stored energy / liquids / gases / solids

	   	12 V
	    	750 V lithium iron phosphate battery
	 	R1234yf: 0.85kg

In the event of mechanical deformation of the battery system, there is a risk of a thermal reaction in the high voltage battery. Monitor the temperature of the high voltage battery!

EXLANTIX		ET BEV 5-door SUV, From 2025					
6. In case of fire							
 USE LARGE AMOUNTS OF WATER		    					
 POTENTIAL RISK OF BATTERY RE-IGNITION / DELAYED							
7. In case of submersion							
After recovering the vehicle from the water, deactivate the high voltage system (see chapter 3) and drain the water. Wear appropriate personal protective equipment!							
8. Towing / transportation / storage							
■ Towing				Rear towing eyelet			
Front towing eyelet				Rear towing eyelet			
STORE AT SAFE DISTANCE FROM OTHER VEHICLES!		 RISK OF BATTERY RE-IGNITION! 					
■ Transportation							
① 		② 		Please use ① flatbed rescue vehicle to load the vehicle.			
9. Important additional information							
 Center airbag				 Knee airbag			
10. Explanation of pictograms used							
	Electric Vehicle		Boot		General warning sign		Warning, Electricity
	Seat adjustment, longitudinal		Seat height adjustment		Seat adjustment, seat back recline		Steering wheel, tilt control
	Use thermal Infrared camera		Use water to extinguish the fire		Flammable		Acute toxicity
	Hazardous to the human health		Environmental hazard		Corrosives		Bonnet
