1. Identification / Recognition

Lack of engine noise does not mean vehicle is off. Silent movement or instant restart capability exists until vehicle is fully shut down.

- Location of vehicle badges

2. Immobilisation / Stabilisation / Lifting

- Completely immobilize the vehicle

1) Chock the wheels and engage the parking brake.
2) Move the shift lever to the park (P) position.
2) Depress the clutch pedal and move the shift lever to the 1st or reverse (R) position.

- Stabilisation-lifting point

Place cribbing such as wooden blocks at the four points under the front and rear pillars.

- Extra Reinforced Lifting Points

Do not place cribbing such as wooden blocks or rescue air lifting bags under the exhaust system or fuel system. Doing so may result in fuel leaks or fire.
3. Disable direct hazards / Safety regulations

- If any of the following systems are required to be operated, operate them BEFORE disconnecting the battery.
  - Power door lock
  - Power window
  - Back door opener

When the 12 V battery is disconnected, electrical components cannot be operated.

- Perform procedure Main or Alternative to completely shut off the vehicle.
  <Main Procedure>

<Alternative Procedure>

- Access to 12 V Battery

4. Access to the occupants

- Window Glass
