Volkswagen ID.4
5-door model, as of 2020

Note: The illustration shows the maximum possible range of equipment.
1. Identification / recognition

The electric motor is silent. The indicator on the left of the instrument cluster (power meter) indicates whether the electric drive is switched “OFF” or “READY” for operation.

2. Immobilisation / stabilisation / lifting

Im mobilize the vehicle

Apply the parking brake.

Lifting points

3. Disable direct hazards / safety regulations

Turn off the ignition (Powermeter “OFF”)

Press the START-STOP button without depressing the brake pedal.

Instead of a radio key, it is also possible to use a key card or smartphone app.

Deactivate the high-voltage system

**Option 1: From the engine compartment**

**Disconnect the 12-volt battery**
Disconnect the negative pole from the body contact point.
In the event of an accident in which the airbags are deployed, the high-voltage system will be automatically deactivated. The high-voltage system is de-energised approx. 20 seconds after deactivation.

Disconnect from the charging station (emergency release)

1. Remove the right side panel.
2. Locate the loop of the emergency release (without the yellow flag).
3. Pull the loop.

4. Access to the occupants

Glas types:

1. Laminated safety glass
2. Toughened safety glass

5. Stored energy / liquids / gases / solids

- 400 V
- 12 V

Do not touch, cut or open high-voltage components and high-voltage batteries!
Wear appropriate protective equipment!
6. In case of fire

- Use lots of water to extinguish the fire
- Lithium-ion batteries can become damaged or improper
- Use promptly or with a delay to ignite or after the ignite fire fighting again!
- Wear appropriate protective equipment!

7. In case of submersion

- After rescuing the vehicle from the water, deactivate the high-voltage system (see Chapter 3) and allow the water to drain. Wear appropriate protective equipment!

8. Towing / transportation / storage

- Do not tow a vehicle that has been involved in an accident on its drive axles.
- Deactivate the high-voltage system (see Chapter 3).
- Park the vehicle at a safe distance, at least 5 m, from buildings and other vehicles (quarantine area).

9. Important additional information

10. Explanation of pictograms used

- Flammable
- Explosive
- Corrosive
- Hazards to the human health
- Environmental hazard
- Electric vehicle
- High voltage warning
- Caution, danger
- Lithium-ion battery
- Dangerous voltage
- Use thermal infrared camera
- Remove smart key
- Boot
- Bonet
